

How to Install the CSVN App- For iPhone

1) Open your browser on your phone and type in: www.csvn.ca/app

This will open the app in your browser.

1) On the bottom of the screen click on the share icon. A menu opens and you can choose to "Add to Bookmarks" or "Add to Home Screen"

If you choose "add to Home Screen, it will add an icon to your Home screen which you can then click and open the app. Each time you open it, the content will update with the most current content

3) If you chose "Add to Bookmarks" then you will be prompted with a title screen and once you save, it will be available in you bookmarks.
